Dr. Jose Madriz, judge of the Central American court of justice at Cartago, who has been close to Zelaya, and is now his enouce for President, will arrive here on Saturday. Madriz has his following, strong and influential, even among the revolutionists but General Estrada, under whose command the great body of fighting nsurgeants now face Vasquez's troops at Rama, will have none of him. The alarm of fire Friday morning a four o'clock was occasioned by an outbreak of flames in the home of Mi and Mrs. Thos. The decision to postpone confirmation of the nomination of Judge Lurton to be associate justice of the Supreme Court of the United States until after the holidays means that the Tennessee jurist will not sit on the nearing of the argument in the tobacco trust case, which is scheduled for January 3. It has been asserted by critics of Judge Lurton that his whole line of decisions as a circuit judge forced the conclusion that he would decide the Standard Oil case adversely to the contentions of the government. which came out victorious in the Cirple who could not otherwise have cuit Court of Appeals. The Standard Oil case will not be reached by the upreme Court of the United Stat providing furnishings for the two sun for more than a year, but the pleadings are exactly the same as in the tobacco trust case. Both of these government suits put to a test the Sherman anti-trust law. The failure of the Senate to confirm the nomination of Judge Lurton prior to the holiday recess means that he will not sit in the most important suit for the destruction of the trusts that has ever reached the court. It is likely that there will be a decision in this case before the much talked of Standard Oil case reaches the court.
